SUMMARY

Experienced Full-Stack Developer with **4 years** in the industry, specializing in proficient **Node.js** backend development. A dedicated problem solver with a robust learning mindset, I bring enthusiasm for smart work and a diligent ethic to deliver high-quality solutions consistently.

TECHNICAL SKILLS

- **Languages:** JavaScript, C++ | • **Backend:** Node.js, Express.js, MongoDB |
- **Frontend:** ReactJS, HTML5, CSS3, Tailwind | • **Familiar:** Nest JS, Docker, PostgreSQL, Redis, AWS
- **Tools:** Git, GitHub, REST APIs | • **Others:** DSA, Microservices, Redux Toolkit

EXPERIENCE

[Astria Digital](#) – Backend Developer

📍 Bengaluru | 📅 Apr 2025 – Present

- Built full backend using Web Sockets for real-time communication in an AI-driven media enhancement platform
- Developed scalable services to facilitate dynamic AI workflows and async processing pipelines
- Integrated cloud services and optimized message queues for real-time updates and client sync

[Americium](#) – Backend Developer

📍 Jaipur | 📅 Sep 2022 – Dec 2024

- Developed scalable REST APIs for eCommerce modules (orders, cart, user)
- Integrated secure payment gateways and real-time order tracking.

[Studio Krew Technologies Pvt Ltd](#) – Full Stack Developer

📍 New Delhi | 📅 Aug/2021 – Aug/2022

- Developed multiplayer gaming platform backend using Socket.IO and Redis for real-time gameplay sync
- Optimized Redis pub/sub architecture to manage game state, leaderboards, and chat
- Built a full-featured ERP management system with user roles, inventory, and reporting dashboard

[Four Brick Technologies Pvt Ltd](#) – Full Stack Developer

📍 Noida | 📅 Jan/2021 – July/2021

- Worked on eCommerce platform backend (product, cart, order flow) using Node.js and MongoDB
- Developed ride-hailing app with real-time vehicle tracking using MQTT protocol for lightweight pub-sub messaging
- Contributed to a healthcare system with appointment scheduling and alert modules

PROJECT

[Medulance](#): Emergency healthcare system for patient triage, ambulance dispatch, and live tracking (*Node.js, MongoDB, MQTT*)

[Tamimi Market](#): Full-featured eCommerce platform for grocery delivery with secure checkout and inventory modules (*React, Node.js*)

[Farm Root](#): Agriculture-based service platform for farmers to manage logistics and connect with buyers

[AltLyf Healthcare](#): Appointment, prescription, and health record management for wellness clinics

[KRA Management \(ERP\)](#): Custom ERP solution to manage employee KPIs, attendance, and payroll with multi-role access

[Service Service](#): **AI-driven image enhancement platform** using Web Sockets for real-time processing.

[Taubola](#): Tambola/Housie game backend with real-time room sync and ticket validation (*Socket.IO, Redis*)

[KrewGames](#): Multiplayer gaming backend using **Socket.IO + Redis** with leaderboard and match sync

[Teen Patti / Octro Rummy](#): Social gaming backend with in-game wallet, room creation, and matchmaking

[EdTech LMS](#): Learning portal with quizzes, videos, dashboard, and admin panel (*React, Node.js, MongoDB*)

EDUCATION

Master of Computer Applications (MCA)

[Jain University](#), Bangalore, India | Aug 2022 – Nov 2024 (Online Mode)

SGPA: 8

Bachelor of Computer Applications (BCA)

[MAJ University](#), Rampur, India | Jul 2016 – Jul 2019

SGPA: 6.7

TRAINING AND CERTIFICATIONS

[Geeks For Geeks](#) – Data Structure & Algorithm Certification Course

Nov 2023 – Mar 2024

- Improving Problem-Solving Skills and programming logic and techniques under the guidance of Mr. Sandeep Jain (CEO of Geeks for Geeks)

[Web Veda](#) – Time Management Masterclass by Ankur Warikoo

Nov 2023

- Learned proven techniques to manage time, focus deeply, and boost daily productivity

[Apex TG India Pvt Ltd](#) – Full Stack Certification Course & Training

Jul 2020 – Dec 2020

- Gained hands-on experience in frontend and backend development using JavaScript and MERN stack
